

AUTUMN HALLSM

A PLACE FOR PLAY AND IMAGINATION

CHAPEL PARK

Named for the feeling one gets when entering under its canopy of large legacy oak trees, Chapel Park is literally thatched in with the crossing limbs and stately trunks of these majestic trees. A feeling of complete solitude and serenity presides over this natural playground. As a way of preserving – and celebrating – the natural uniqueness of this location, much is being left as it was, with only simple mulched areas graced with garden benches and a carefully placed children's play area.
